

## **Announcement from CEO**

### **About Anti-corruption policies**

Matching Maximize Solution Public Company Limited realizes and emphasizes the significance of strictly doing business with integrity, equity, acts in compliance with laws and regulations of all relevant parties, objection and resistance to all forms of fraud and corruption, and promotion as well as support of ethics and morals involved in all employees' activities under the Company's business operation.

The Company believes that being successful requires dedication to work and efficiency, without any involvement in revenue from bribery, fraud, and corruption. Therefore, the Company has outlined anti-corruption policies for the directors, the management and the employees to use as practical guidelines and for business partners and all stakeholders to be aware of our business operation guidelines that focus on transparency, integrity and ability to be scrutinized. The company has launched campaigns to create awareness on the issues through operation manual, websites, internal activities, and public relation activities in order to ensure that the practices on such issues would be consistent and eventually become part of organizational culture.

The Company would like to request all directors, management, and employees to strictly follow the Company's anti-corruption policies, which should go alongside the code of conduct and the corporate governance policies as the Company's intention.
